

CORRECT CHOICE OF CONSUMABLES FOR METLAM AUSTRALIA DISPENSERS (TOILET ROLL & PAPER TOWEL)

METLAM AUSTRALIA DISPENSER GUIDELINES

As Metlam Australia does not sell consumable products, the products listed below reflect the most popular range of consumables in the market. There are also many product equivalents that can be successfully utilised in Metlam Australia dispensers, use below as a guide to the Metlam Australia suitability requirements. Please note, Metlam Australia recommends that any consumable is trialled prior to being purchased to ensure suitability as manufacturers of products may change dimensions and ingredients without notification to Metlam Australia.

GUIDING PRINCIPLE

The key to finding the correct products to put in your Metlam Australia dispenser is knowing the width and depth of your product and maximizing the internal space available.

Note: If the paper is too narrow it may fall out of the dispenser in clumps.
