Installation Guidelines

- *May be subject to Australian Building Code Regulations for height and location fixing and may be subject to placement as per architectural drawings. In all cases, this is the responsibility of the installer.*

1. Loosen Grub Screw (B) in Mounting Support (A) with Hex Key (C) and remove Wall Mount Bracket (F) and separate from Cover (D).

2. Locate height of relevant Lachlan fixture and using one slotted and one opposing hole in Wall Mount Bracket (F), align so as indent on shaft faces downwards (Grub Screw aligns into the indent) and mark fastening locations onto the surface being affixed to (a minimum of 2 anchor points per Wall Mount Bracket (F) MUST be used).

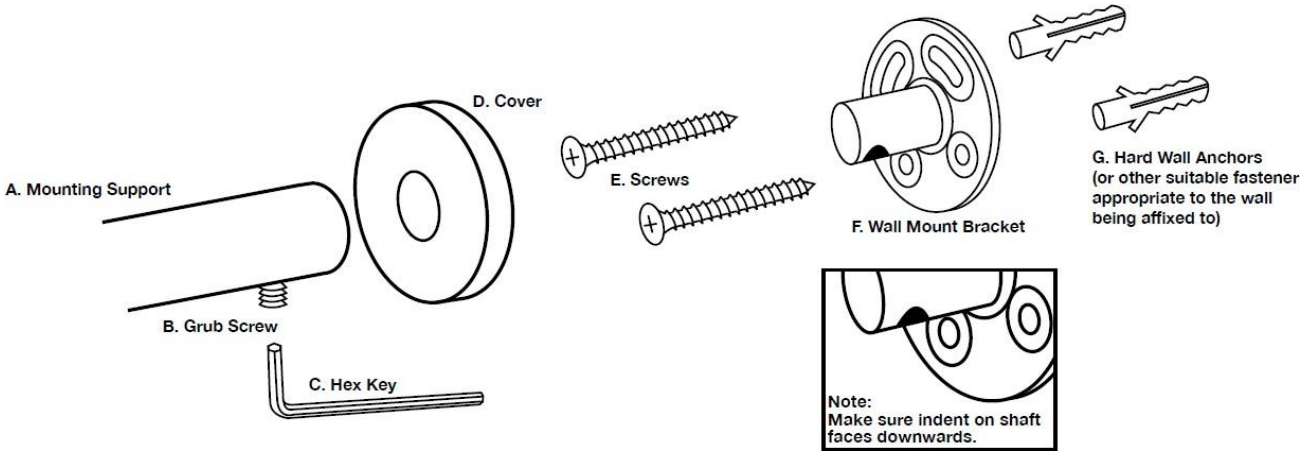

- **Note**: For dual Mounting Support application, ensure that height positions are parallel and Centre to Centre measurements are correct.

3. Drill holes in marked positions, insert Hard Wall Anchors (G) or other suitable fasteners appropriate to the surface being affixed to.

4. Place Screws (E) through Wall Mount Bracket (F) and loosely tighten Screws (E) into Anchors (F) and recheck and/or adjust alignment, then firmly secure Screws (E) to hold Wall Mount Bracket (F) firmly to surface being affixed to.

This product is AS1428.1 compliant (accessible compliant) when installed in accordance with the guidelines.

5. Position Cover (D) over Wall Mount Bracket (F) then slide Mounting Support (A) onto shaft of Wall MountBracket (F) and secure Grub Screw (B) ensuring it aligns into the indent.
