Mounting

- Concealed Screw Fix

Dimensions

- 76Ømm x 83mmD

Finish

- **ML216S:** Satin Stainless Steel
- **ML216B:** Polished Stainless Steel

Installation Guidelines

- *May be subject to Australian Building Code Regulations for able bodied and/or disabled use. It is recommended that any individual unit is installed whereby it clears any other fixtures by at least 150mm and not carry loads any greater than 30kg. It is the responsibility of the installer to ensure correct installation and appropriate fixings are used.*

1. To remove wall mount bracket from the back of the hook, loosen the 3 set screws using an Allen key (not provided).
2. Locate fixing position on the wall and mark using the outer mounting holes, ensuring that the hook is level.
3. Fix the wall mount bracket to the wall using the screws and wall plugs provided. Ensure that the bracket is facing the correct way (the bracket should be curving away from the wall and the prongs facing upwards).
4. Slide the hook onto the wall mount bracket, ensure the prongs are fitted into the allotted spaces on the back of the coat hook.
5. Check the unit is level and ensure the set screws are fully tightened to finish installation.
