- **ML226_18S:** 457mm C to C
- **ML226_24S or ML226_24B:** 610mm C to C
- **ML226_30S or ML226_30B:** 762mm C to C
- **ML226_36S or ML226_36B:** 914mm C to C

Finish

- **B:** Polished Stainless Steel Finish
- **S:** Satin Stainless Steel Finish

Installation Guidelines

- *May be subject to Australian Building Code Regulations for height and location fixing and may be subject to placement as per architectural drawings. In all cases, this is the responsibility of the installer.*
1. Remove the concealed wall plate from back of cover flange and mounting arm by loosening the set-screw from the mounting plate.
 2. Locate fixing position on wall or partition and mark using the holes on the mounting plate.
 3. Mount the wall plate (with prongs facing upwards) to the wall and loosely secure using the appropriate fixings.
 4. Ensure the mounting plate is level and tighten fixings.
 5. Fit the flange cover and mounting arm over wall plate and secure into position by tightening set-screw at base of flange.
 6. Measure length of rail, locate and mark fixing point for the second flange cover and mounting arm.
 7. Follow steps 3 to 5 and check unit is level to finish installation.

The technical recommendations contained in this document are necessarily of a general nature and should not be relied on for specific applications without first securing competent advice.
