

ML4162 Stainless Steel Coat & Hat Hook

Material Specifications

- Stainless Steel Body
- Rubber Bumper

Dimensions

30mmW x 35mmH x 90mmD

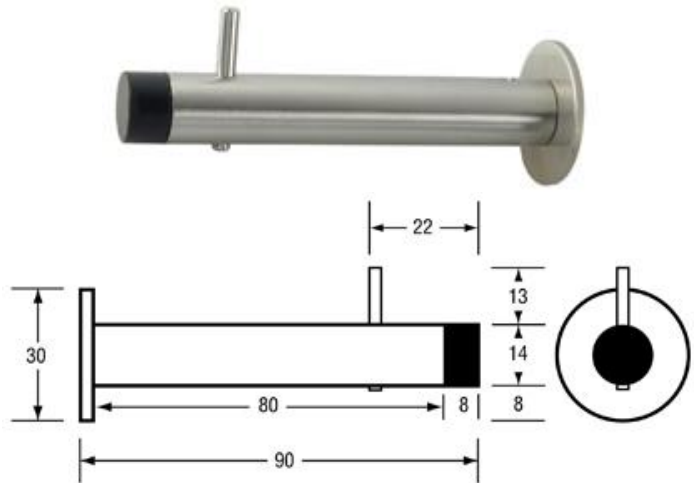

Installation Instructions

- *May be subject to Australian Building Code Regulations or architectural plans for installation height, which is the responsibility of the installer. It is recommended that any individual unit is installed whereby it clears any other fixtures by at least 150mm and not carry loads any greater than 8kg.*

1. Using the Allen key provided, undo the grub screw at the base of the hook to release the ferrule.
2. Locate fixing position on wall and mark using the ferrule, ensuring hook is level.
3. Drill holes and tighten the ferrule to the wall surface using the screws and wall plugs provided.
4. Check the hook is level. Attach the hook to the ferrule and tighten grub screw with the Allen key to finish installation.

Operation

- Rubber bumper protects walls or partition surfaces from being damaged.

This product is AS1428.1 compliant (accessible compliant) when installed in accordance with the guidelines.
