- **ML980_5:** 1168mmW x 230mmH x 82mmD / Hooks: 5

Installation Guidelines

- *May be subject to Australian Building Code Regulations for height and location fixing and may be subject to placement as per architectural drawings. In all cases, this is the responsibility of the installer.*
 - It is recommended that these units be securely fixed to the substrate (e.g. noggins) or that suitable fasteners or anchors are used to securely affix the unit to the plasterboard, concrete or brick wall.
1. Locate and mark height on wall and mark using the fixing holes, ensuring unit is level and even.
 2. Drill holes into substrate, insert fasteners or anchors and loosely secure unit to wall surface using screws provided (wall plugs not provided).
 3. Check the hook strip is level and tighten screws to finish installation.
