Installation Guidelines Sheet

ML_IMC3_LUX Integrated Mirror Fronted Cabinet

Material Specifications
- #304 Stainless Steel
- Designer Matte Black Cabinet
- 5mm Safety Glass

Dimensions/Features

- **Cabinet Size:** 859mmH x 865mmW X 125mmD, includes Hand Dryer, Soap Dispenser, and Paper Towel Dispenser

Installation Guidelines

Step 1: Please refer to the architectural drawings for required product placement and height. **UNIT MUST BE ATTACHED TO A SOLID WALL OR IN-WALL SUPPORT.**

Step 2: Locate the x 4 mounting holes on the back of the unit. Based on the installation height required, mark the 4 mounting points on the wall. Please check the mounting hole measurements as slight variations may occur due to manufacturing tolerance.
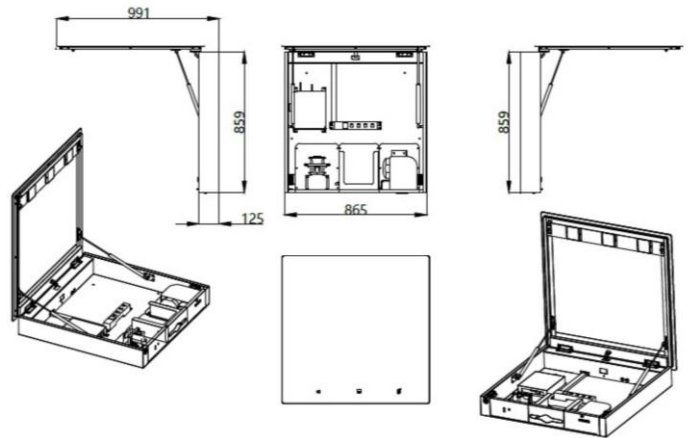

Step 3: Using a drill, drill x 4 mounting holes in the marked locations on the wall.

**Step 4:** Drive the x 4 M8 90mm expansion bolts provided into the drilled mounting holes.

Step 5: Open the front of the mirror to approx. 45°. Using 2 people, lift the mirror cabinet and slowly align it with the expansion bolts on the wall.

Step 6: After placing the unit over the expansion bolts, secure the unit with nuts to complete the installation.

Step 7: Attached the power cord to the power supply and test to ensure all function are working correctly.
